A BAD STORM.

Two Mules Killed and a House Badly Damaged.

The northern part of this county was visited by a terrific rain and electrical storm last Sunday afternoon. In some sections the rain fell in torrents for about an hour, and the creeks rose to such an extent that considerable damage was done to flood gates and fences along their courses. Two negroes, who were riding mules took refuge from the storm in a cabin on Enon creek, and while there a bolt of lightning also struck the house and damaged it considerably, but the occupants escaped unhurt.

"Caramba."

Thought it is not so very strange why people like to trade at our little store in the forks of the road; because we always do what we promise. We are offering this week:

His Leg Cut Off.

A negro man, giving his name as Will Coleman, of Pulaski, had his leg cut off a few inches above the ankle at the railroad crossing near Rose Hill Cemetery last Wednesday morning. Coleman was stealing a ride on a north-bound freight train, and was riding on the rods beneath a car. While the train was going at a rapid rate, he attempted to jump from his perilous position and in so doing fell, with results as above stated. He was carried to a negro house near the depot, where his leg was amputated Wednesday afternoon.

Our

Pleasant Department

Extends over our whole store, of course, but our extra pleasant department is the part devoted to

Perfumes and

Soda Water.

The next time you call on us ask about our new *Violet Extract* and *Tablet Sachets*, all the adjectives superlative, fragrant, delicate, permanent, etc., apply to these specialties, but words in an advertisement can't describe them; let us put a drop or two on your handkerchief.

SODA WATER *unhealthy! not at all!* The big medical books, the U. S. and National Dispensatories say that it is a grateful drink to feverish patients, lessening nausea or distress of the stomach—allays thirst far better than water alone, and the quantity taken need only be regulated by the reasonable wishes of the patient. *That ought to settle it.* If a sick person can be allowed to drink it as desired, a well person certainly has the privilege.

Lightning's Pranks.

Last Sunday afternoon about 3 o'clock, a bolt of lightning, which came from an almost cloudless sky, got into Maurice's tailor-shop on West Seventh street in such a mysterious manner, and after tearing a hole in the ceiling as large as a man's hat, took its departure as unceremoniously as it had come. Mr. Maurice was in his shop at the time, but was unhurt; it is needless to say, however, that the terrific crash and the flying plaster made him wish that he was somewhere else.

Strange to say, the house did not catch fire, and no other damage was done except the hole made in the ceiling.
